
ACQ: Edit Approved results in RTEs, inaccurate error

- **Article Type:** Known Issue
 - **Product:** Voyager
 - **Product Version:** 9.1
 - **Relevant for Installation Type:** Dedicated-Direct; Direct; Local; Total Care
-

Symptoms

* Type location name into Intended Location drop-down when Edit Approved Line item results in "There are no ledgers for this location!"

* Message may be followed by one of these run-time errors:

Run-time error 457: this key is already associated with an element of this collection.

Run-time error 440: Automation Error

Run-time error 5: Invalid procedure call or argument

Defect Status

Issue VYG-6567 is resolved for Voyager 9.2.0 (due Q4 2015) and higher.

Replication Steps

1. Acquisitions > Orders > find an approved PO with a line item to be edited.
 2. Open Purchase Order > Highlight line item > Click Line Item > Edit Approved ...
 3. Click on Intended Location drop-down box and begin typing name of new location.
 4. Error message: "There are no ledgers for this location!" (but location belongs to multiple current ledgers)
 5. For some locations, message followed by one of these run-time errors:
Run-time error 457: this key is already associated with an element of this collection.
Run-time error 440: Automation Error
Run-time error 5: Invalid procedure call or argument
 6. Client closes. Any saved work is lost.
-

Workaround

Select location from drop-down box, rather than type in location name.
