## How to turn off automatic printing/emailing of cash receipts

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Desired Outcome Goal:

Prevent a receipt from automatically being printed/emailed when a cash payment is made.

### Procedure:

Add "NO-PRINT" to column 6.1 of the "PayLetter" and "LineLetter" lines in <C:\AL500\circ\tab\print.ini>. If a printer is defined in column 6.1, then change the value to "NO-PRINT".

### That is:

PayLetter 00 N P payltr.prn NO-PRINT

LineLetter 00 N P lineltr.prn NO-PRINT

---

## Additional Information

This is the opposite of the situation in Article 000015565 ("Print button on patron cash screens doesn't work") where the customer wanted receipts and they were not printing.
