

## Customized reports are sent twice via email with different contents

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 21
- 

### Problem Symptoms:

\* customized reports are sent twice via email with different contents

### Cause:

Job daemon is running on the test system, sending out a second version of the reports

### Resolution:

A. Stop job daemon in test system

util e/15/2 Kill job daemon

B. Refine the file \$alephe\_tab/job\_list in test system and keep the job daemon active

1. Remove relevant entries from file \$alephe\_tab/job\_list
2. Reload job daemon (util e/16/9 Reload job\_list)
