
SFX Holdings not appearing in Google Scholar

- **Article Type:** General
 - **Product:** SFX
 - **Product Version:** 4
-

Problem Symptoms:

Link to institutional SFX menu not appearing alongside article results in Google Scholar

Google Scholar registration already exists

Verified that Google is crawling the server to attempt to collect holdings files

Cause:

Export files need to be created in compressed format

Resolution:

1. Access the server_admin_util as the local instance UNIX user
2. Select option 8 "Export GOOGLE institutional holdings file"
3. Select option 3 "Schedule export GOOGLE institutional holdings file"
4. When asked to "Use zip compression?", select Y
5. Holdings should be updated in Scholar within 7-10 days of the files being generated

Additional Information

Unless there is a specific SFX institute defined, leave this field blank when prompted to enter the institute's name.
