---

Problem Symptoms:
* When searching for a title in the OPAC (e.g. "American Economic Review") the inactive sfx icon is shown although the fulltext should be available.

Example of configuration
* $alephe_root/www_server.conf
setenv sfx_base_url http://demo.exlibrisgroup.com:9003/demo

* ./xxx01/tab/tab_sfx
! 1 2 3 4 5

XXX01 www_f_sfx 11 N getFullTxt

Cause:
The sfx_openurl_version is set to ver-0.1

Resolution:
1) Change variable setenv sfx_openurl_version in $alephe_root/aleph_start.private

old:
setenv sfx_openurl_version ver-0.1

new:
setenv sfx_openurl_version ver-1.0

2) Restart the web server (util w/3/1)
