

Couldn't create hold record" error message

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Problem Symptoms:

Attempting to create a booking request in the Circulation GUI client it displays a box with the "Remote service error C0467 create 62" in the top bar and "Couldn't create hold record" in the body.

Cause:

The tab37_booking_pickup and tab37_booking_delivery tables in ./xxx50/tab directory were not updated with the sublibraries information.

Resolution:

Check and update the ./xxx50/tab/tab37_booking_pickup and tab37_booking_delivery tables.

Category: Circulation (500)

Subject: Advance booking (500)
