

Denied permission for Task Manager FileList

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Problem Symptoms:

* In Task Manager the display of the FileList is not possible:

Error message "User denied permission for function Task Manager(TASK-MANAGER)/All Unspecified Subfuntions(GLOBAL)"

Cause:

Resolution:

Answer

Go to Staff privileges (little key icon at the bottom of the screen) and check the permission for the library in question in section '7. Common / Task manager'.

If the permissions are denied or not assigned at all please assign them.
