

## Jboss does not start up

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Problem Symptoms:

When starting the Jboss server, the following message is displayed without any progress:  
monitoring startup complete signal

.....

### Cause:

This may happen in the scope of the Aleph Installation Kit when the Jboss server is started.

### Resolution:

1. Check if there are running Java processes and kill them:

a. `ps -ef | grep java`

b. If Java processes are returned kill them:

`kill (process number)`

**IMPORTANT NOTE:** Do not kill the `/usr/java/bin/java` process if it is returned!

2. Start the JBoss server:

`util w/3/7/9`

**Category:** System Management (500)
