

WebVoyage text message save button is blank

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 8.2.1
-

Problem Symptoms:

* WebVoyage > My Account > View Personal Information, the Save Text Number button is small and does not have any text

Cause:

The text message button options are commented out in webvoyage.properties.

Resolution:

1. `cd /m1/voyager/xxxdb/tomcat/vwebv/context/vwebv/ui/<skin>/webvoyage.properties`
2. Find the following options:
`#page.myAccount.viewPersonallInfo.smsNumber.save.button=Save`
`#page.myAccount.viewPersonallInfo.smsNumber.save.button.message=Save text number`
3. Remove the hash symbol (#) to make these options active again.
4. If desired, edit the `save.button.message=` value if you want the save button to contain different text.
5. Save changes.
