
PRIMO: Aleph "Assumed Lost" items don't display

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 4
-

Problem Symptoms:

Aleph items with item process status "AL" (Assumed Lost) do not display in Primo.

Cause:

The entry for "AL" in ./xxx50/tab/tab15.lng had "N" in column 10 (OPAC-DISPLAY).

Resolution:

1. Change the value in tab15.lng, column 10, from "N" to "Y".
2. If the tab_expand expand_doc_bib_avail entry lacks "AVA=AL" in column 3, add it.
3. Restart the xxx01 ue_21 publishing daemon.
