

## PDS not active in Aleph OPAC

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Problem Symptoms:

Even after activation of PDS (tab100: PDS-AWARE=Y) in Aleph OPAC PDS is not used when a patron tries to log in.

### Cause:

Wrong HTML pages

### Resolution:

Following change from "Upgrade Express 19.01 to 20.x User Guide" needs to be implemented in customers HTML pages:

### Additions to PDS

Enables PDS to work with Aleph when PDS server does not respond

head-1-nobor

### Replace:

```
<a href="&server_f?func=file&file_name=login-session" class="blue" title="Enter your username and password">
```

### With:

```
<a href="&server_f?func=LOGIN-PAGE" class="blue" title="Enter your username and password">
```
