

Certain locations not included in search results for certain videos

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 21
-

Problem Symptoms:

In the OPAC, (http://abc.edu:4505/F/?func=option-update&SHORT_NO_LINES=30&func=file&file_name=find-a&local_base=abcuadv) copies (certain locations) are not displaying for certain video titles.

In the GUI and Primo, Copies/locations display

Cause:

Errors in tab_base.eng due to copying the file from v20 --> v21. Long lines were broken into separate physical lines, when they should have remained as single logical lines.

Resolution:

1. Correct line-breaks in \$alephe_tab/ tab_base.eng
2. Restart the www_server using util w/3/3
