

Holdings display incorrect for serial title

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 8.1.0
-

Problem Symptoms:

- * Checked in serials issues are showing in Recent Holdings but not attached to holdings record in Cataloging
- * Withdrawn serials issues showing in WebVoyage

Cause:

1020 display code used in WebVoyage, and "Display in OPAC" set to Yes for issues

Resolution:

1. Log into Acquisitions > Check-In > Serials History and retrieve record.
2. Find issues in Receipt History tab. You may need to click Next button if large number of checked in issues.
3. Highlight issues and click Display in OPAC button to toggle to No.
