
UB: "Pick Up At" does not refresh when Pickup library changed

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 8.1.1
-

Problem Symptoms

When choosing different library as pickup library for UB requests, Pickup At drop-down menu does not refresh with locations for that library.

Cause

WebVoyage skin files are out of date.

Resolution

1. `/m1/voyager/xxxdb/tomcat/vwebv/context/vwebv/ui`
2. `cp -r exl_default <new skin directory>`
3. Reapply all customizations to `<new skin directory>`.
4. Test & deploy new skin files in production.

Additional Information

See Voyager 8.0.0 Road To document for skin file upgrade requirements for upgrades from Voyager 7.x to Voyager 8.0.0 and higher.
