

## Cannot add location to circ policy definition

- **Article Type:** General
  - **Product:** Voyager
  - **Product Version:** 7.2.1
- 

### Problem Symptoms

- \* Location is not in Available Location list when trying to add to Circulation Policy Definition A
- \* Location is part of Circulation Policy Definition B

### Cause

Locations can only belong to 1 Circulation Policy Definition

### Resolution

1. In SysAdmin > Circulation Policy Definitions > [Policy B] > Edit > Locations, move location from Selected to Available.
2. Now navigate to [Policy A] > Edit > Locations. Location should now be in Available column.

---

#### Note

This situation where the Location is not in the Available Location list can also occur when the operator's master profile does not have the Location as a Selected Location. See step II. A. in: [Add a New Location to Voyager](#)

---

### Additional Information

[Voyager System Administration User's Guide](#), Chapter 5: "Circulation Configuration" for more information.

- Locations can belong to only one Circulation Policy Definition.
- Locations can belong to only one Cataloging Policy Definition.
- Locations can belong to only one Acquisitions Policy Definition.
