

scrolling with mouse wheel fails

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Problem Symptoms:

*Scrolling with the mouse wheel on drop down lists doesn't function.

*In Cataloging module Search, the scrolling on the field list (Anywhere in the record, System number, Titles.....) with the mouse wheel doesn't work.

Cause:

Change in Aleph 20, rep_change 3212:

PC GUI, In circulation module item list, the "sort options" Combo box caused the GUI to be unstable when changing selection using the mouse wheel.

Resolution:

Click on the arrows to move up and down the lists.

Category: Cataloging (500)
