
ORA 600 error [ktbesc_plugged]; October 2012 Oracle patch set

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 21
-

Problem Symptoms:

* ORA 600 errors in reindexing logs; known bug in Oracle that has been patched.

* The Ex Libris Documentation Center > Cross-Product > Technical Documentation > Oracle > Oracle 11g > October 2012 Oracle Patch Set Update for Ex Libris Products Using 11.2 has the following step:

3 Download the appropriate upgrade package from the /oracle/11.2.0.3/<platform>/quick directory on the Ex Libris FTP server.

* However, the patch set in this directory is April 30, 2012; there is no October 2012 patch set.

Cause:

Error in documentation.

Resolution:

* The Oct. 2012 patch is in a different directory:

`./oracle/OCT2012_PSU/Linux64/quick/...`

Additional Information

The "October 2012 Oracle Patch Set Update for Ex Libris Products Using 11.2" will be corrected to reflect this changed location.
