

Service pack error: "Could not find gcc prefix"

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18.01
-

Problem Symptoms:

* Trying to install a Service Pack in Solaris 10 environment results in error message 'Could nor find gcc prefix'

Example

On entering option 1 (install service pack) the following error is displayed:

```
Please select [0]: 1
Are you sure you want to install Service Pack 1222 Y/[N] Y
Could not find gcc prefix. Exiting.
```

* gcc is correctly installed

Cause:

The problem was caused by an incorrect gcc version

Resolution:

1. Change file
\$alephe_root/aleph_start by adding /usr/sfw/bin/ in the PATH variable

Example

```
setenv PATH "${PATH}:/usr/ccs/bin:/usr/ucb:/opt/bin:/usr/sfw/bin:/opt/sfw/bin:/opt/csw/bin"
```

2. Activate the change by
source \$alephe_root/aleph_start
