
Folder Management in My e-Shelf

- **Article Type:** General
 - **Product:** Aleph
-

Problem Symptoms:

In the Folder Management function of My e-Shelf, when clicking the checkbox for selecting all titles, no title gets checked.

Cause:

A line in the file \$alephe_root/www_f_Ing/myshef-folder-list-right-head was translated which must not be translated.

Resolution:

1. Open the file \$alephe_root/www_f_Ing/myshef-folder-list-right-head
2. Restore the line:

```
<input type="hidden" name="folder" value="BASKET">
```

Additional Information

In this case the word "BASKET" was translated to the Spanish term "CESTA", hereby preventing correct functionality.
