

GDC Search error, cannot retrieve saved searches

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 8.2.0
-

Problem Symptoms:

* In Global Data Change (GDC) client, click Search, receive "Server request not found : GET_SAVED_SEARCHES"

Cause:

Incorrect GDC port specified in voyager.ini file.

Resolution:

1. In client directory on PC - usually [C:\Voyager](#) - open voyager.ini file.
2. Locate GDC stanza: [GlobalDataChange]
3. Edit Port= value in this stanza. By default, GDC port is xx15, where xx is the database instance port series.

Category: Global data change (GDC)
