## Service Temporarily Unavailable" in attempting to access OPAC

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 21
- 

### Problem Symptoms:

The message [503] "Service Temporarily Unavailable" appears in attempting to access OPAC on port nnnn.

### Cause:

As seen in util w/1/2, there is no www\_server running on port nnnn.

### Resolution:

Do util w/3/1 to start the www\_server on port nnnn.

---

## Additional Information

If no port is specified (such as: "<http://library.abc.edu/F>"), the default (port 80) is used.

**Category:** Web OPAC (500)
