
SEARCHPARAM: missing LN variable for 3 left-anchored indexes

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 8.2.0
-

Problem Symptoms:

Text Length variable (LN=) in SEARCHPARAM.INDEXRULES is not included in updates to 8.2.0 indexes for 3 left-anchored indexes (8000, 8110, 8300)

Cause:

This behavior is the result of Issue 16384-21442.

Resolution:

Issue 16384-21442 is currently in Development.

Additional Information

Does not appear to impact searching on any of the three affected indexes ?€“ index works fine without the parameter.
Workaround: Transfer LN= parameter to new index rules in SEARCHPARAM_resolved.xls prior to upgrade.
