

## Configure Alma to loan items until the end of the day

- **Product:** Alma
- 

### Question

How can Alma be configured so that the due date / due time is set to the last open minute of the same day?

### Answer

In the Terms of Use (TOU) used for items that should be due at closing set the following:

1. The 'Due Date' policy set to '0 days'.
2. The 'Closed Library Due Date Management' policy set to 'Move backward - move to end of previous open day'.

Now, the loans using this TOU will be assigned a due date / due time of the last open minute of the loan day.
