## Cannot get HOL library authority-controlled field to update

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Problem Symptoms:

\* Our xxx60 library has one authority-controlled field, the 540 tag.

\* Automatic-updating feature doesn't work for the field.

### Cause:

Indexing discrepancy

### Resolution:

There's an indexing discrepancy between xxx10 and xxx60. xxx60 doesn't include \$\$\$d in the index, and when it is used, the heading usually gets a -chk.

---

## Additional Information

Consult KB 4100 ("New/updated authority record doesn't generate bib links"), which describes all of the steps necessary in this process.

**Category:** Cataloging (500)

**Subject:** Authorities (500)
