

Help screen for Inventory Marking

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Problem Symptoms:

- * On clicking a "Help" button in the GUI, no help screen is provided, or
- * The help file is obviously outdated.

Cause:

GUI help files not updated after installing service packs.

Resolution:

Updated help files are provided with every service pack. Update your help by downloading all files from \$aleph_root/pc_exe/sp_conf/alephcom/help/lnp (except those with an sp.xxxx extension) to your GUI directory .\alephcom\help\lnp.

Additional Information

If you find the help file to be still missing or outdated after performing the above-described actions, please contact Ex Libris support.
