
Indexing of some ADAM URL objects not possible

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Problem Symptoms:

Indexing of some ADAM URL objects not possible. Error message is "URL support is not yet implemented" when trying to index the object in GUI by clicking the "Indexing" button and in addition message "get_url.pl: Can't fetch file headers" in log file of "Create Thumbnail or Full Text" (adam-05) when trying to index the object using adam-05.

Cause:

Defect

Resolution:

rep_change 88 in Aleph 21

Description: ADAM - It is impossible to create an index file (for full text indexing) for html objects defined by a URL.

Solution: This has been corrected.

Category: ADAM (500)
