
Activating DirectLink banner causes error message

- **Article Type:** General
 - **Product:** SFX
 - **Product Version:** 4
-

Problem Symptoms:

The following error message appears instead of target vendor site when DirectLink Banner is active

HTML::Template->new() called with odd number of option parameters - should be of the form option => value at /exlibris/sfx_ver/sfx4_1/<instance>/lib/SFXMenu/Output/[DirectLinkWithBanner.pm](#) line 63

Cause:

Missing Section "mix_html_menu" in local instance ctx_object.config

Resolution:

1) Open /exlibris/sfx_ver/sfx4_1/<instance>/config/ctx_object.config in a file editor

2) Following the 'Section "html_menu"', add:

#For mixed directLink page.

Section "mix_html_menu"

debugging "0"

log "\$ENV{SFXCTRL_HOME}/logs/sfxmenu"

timer "0"

keep_log "0"

debug_ip_range "*.*.*"

grouping "Y"

collapsible "Y"

usr_must_pick_single_object "1"

template "\$ENV{SFXCTRL_HOME}/templates/sfxmenu/mix_sfxmenu.tpl"

verde_link "0"

mail_to "[your@email_address_here](#)"

3) Edit the mail_to variable to include your email address

4) Save the file, the change will take effect immediately
