
Error 0212 : Z303-HOME-LIBRARY Is Invalid

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 19.01
-

Problem Symptoms:

?€¢ Patron Loader (file-20) does not update records for patrons sharing the same sublibrary

?€¢ The message Error 0212 : Z303-HOME-LIBRARY Is Invalid appears in the Patron Loader (file-20) process log in \$alephe_scratch

Cause:

The sublibrary belonging to the unloaded patrons has not been defined in tab_sub_library.eng.

Resolution:

1. Define the patron's sublibrary in /exlibris/aleph/aXX_X/alephe/tab/tab_sub_library.lng
2. re-run Patron Loader (file-20) to load the previously unloaded patrons

Category: Circulation (500)
