

## Error when running cold backup script

- **Article Type:** General
  - **Product:** SFX
  - **Product Version:** 4
- 

### Problem Symptoms:

Running the command `csch -f /exlibris/backup/scripts/exec_backup_main s1`

Generates the error:

```
'/exlibris/backup/scripts/exec_backup_main: No such file or directory.'
```

### Cause:

Backup Package not installed

### Resolution:

1. Download and install the Backup Package per chapter 4 of the Backup Package Guide
2. Backup Package Guide is located in the Documentation Center under Cross-Product > Technical Documentation > Backup Package

**Category:** Startup / Backup (SFX)

**Subject:** SFX
