## Execution error : file '/exlibris/aleph/a2x\_x/aleph/exe/io\_z323.gnt'

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 20
- 

### Problem Symptoms:

\* service SDI - Selective Dissemination of Information (sdi-01) is not working

\* In \$alephe\_scratch there is this error:

Execution error : file '/exlibris/aleph/a20\_1/aleph/exe/io\_z323.gnt'

error code: 114, pc=0, call=1, seg=0

114 Attempt to access item beyond bounds of memory (Signal 11)

### Cause:

The program used from the sdi-01 is not able to create or rewrite a record in Z323 Oracle table.

### Resolution:

The 'bad' record should be removed from the Z323 table.

It's also possible to drop and recreate the Z323 table using util a/17/1 after a backup of the Oracle table.

We recommend to contact Ex Libris support.
