

## Selecting Call Slip suspend message still allows users to submit requests.

- **Article Type:** General
  - **Product:** Voyager
  - **Product Version:** 8.1.1
- 

### Problem Symptoms:

- \*Request message displays on request form, but users can still place call slip requests.
- \*Requests show up in Call Slip queue.

### Cause:

The OPAC message is not set to suspend.

### Resolution:

1. Go to SysAdmin>OPAC Configuration>Call Slip Request Messages and click Edit.
  2. Check Suspension for Call Slip Request Message.
- 

## Additional Information

In Circulation>Functions>OPAC Messages, a Y will display in the Suspend column for suspension messages.
