

Show like" button in GUI full view does not work

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 21
-

Problem Symptoms:

Viewing a record in the Full+Link tab (GUI) the "Show like" button does not become active when highlighting a subject.

Cause:

Defect

Resolution:

The problem is fixed with rep_change 2383:

Description: ILL - in some cases, after searching a document and display it in full view, the following related problems occurred: 1) locate process results were wrong 2) self ownership check gave incorrect results.

?

Solution: This has been corrected.

Although the description of rpc 2383 does not explicitly mention the "Show like" button it does solve the problem.
