
ILL: Source of Reference Field missing in bibliographic description

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 18
-

Problem Symptoms:

When the user submits an ILL request, they have the option to include a 'Source of Reference'.

Where can the text submitted in this field be edited?

I would've expected to find this field on tab '2. Bibliographic Details'.

Cause:

Defect

Resolution:

The 'Source of Reference' is stored in bibliographic field 590 (MARC 21) and can be seen in tab '2. Bibliographic Details'

Sometimes there is a problem in handling this field, resulting in a corrupt contents.

The problem was solved with rep_change #2479 (Aleph 21).

Additional Information

rep_change #002479 Description: ILL - In some cases, when updating the bibliographic information of a borrowing request, the source field is corrupted.

Category: ILL2 (500) - ALEPH
