
ORA-00904: "Z410_ARCHIVE": invalid identifier

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Problem Symptoms:

- On the GUI ILL it's not possible to create new requests.

- In the pc_server log there is the error message:

Oracle error: update_cursor3 z410

ORA-00904: "Z410_ARCHIVE": invalid identifier

Cause:

In the Z410 Oracle table (ILL BORROWING - PATRON REQUEST), the Z410_ARCHIVE field is not present because of the Upgrade Express 18-19 step 1018 failed.

Resolution:

1. Check in the \$ALEPH_MOUNT/upgrade_express_1801_1901/logs the log of step 1018.
2. Fix the problem transferring again table Z410 from the previous version if necessary.
3. Run step 1018 again.
