

Go button in SFX menu has no effect

- **Article Type:** General
 - **Product:** SFX
 - **Product Version:** 4
-

Problem Symptoms:

Clicking the Go button or target name in the SFX menu has no effect

Cause:

This error may occur if the symbolic link broken for target_list.tpl

Resolution:

1. Login to the UNIX environment as the local instance user
2. Rename /exlibris/sfx_ver/sfx4_1/<instance>/templates/sfxmenu/target_list.tpl to create a backup version
3. Recreate the symbolic link to the global version of the file:

```
In -s /exlibris/sfx_ver/sfx4_1/sfxglb41/templates/sfxmenu/target_list.tpl
```

Additional Information

If target_list.tpl contains look and feel customization, code should be added manually by comparing to the global version
