

## AIK: "-bash: csh: command not found"

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 22
- 

### Problem Symptoms:

The error "-bash: csh: command not found" occurs in trying to run AIK step 2.1 (Pre installation tasks) -- or in some other AIK step.

### Cause:

csh not installed. As noted in the Ex Libris Documentation Center > Aleph > Technical Documentation > Version 22 > Installation and Upgrade Information > "Requirements for Aleph Installation" document, "csh must be available".

### Resolution:

Have the Unix system administrator install csh.
