

## Media: Boolean searching does not retrieve results.

- **Article Type:** General
  - **Product:** Voyager
  - **Product Version:** 5.1
- 

### Problem Symptoms:

⚠ No results are found in Media Scheduling when searches include the "AND" operator.

### Cause:

This behavior is the result of issue: VYG-4381

### Resolution:

This issue has been resolved for Voyager 9.0.0 and above.

---

## Additional Information

1. Open Media Scheduling 2. Select a room, or equipment known to have two searchable options. 3. Search for the known room or equipment using the two searchable options using the AND operator. 4. No results are found.
