
Oracle Data Pump and Z91

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 20
-

Problem Symptoms:

- * Aleph site using ADAM recently has used Oracle Data Pump to transfer data from server A to server B
OR Aleph site using ADAM upgrade from one version to another using Data Pump
- * Afterwards parts of ADAM full text index (Z91, DR\$Z91_ID1) are missing on server B
- * There may be following error messages in "run_e_01_z0102.*"

Oracle error: ctx_sync_error
ORA-20000: Oracle Text error:
DRG-10502: index XXX01.Z91_ID1 does not

Cause:

Oracle Data Pump is not able to transfer Z91 data

Resolution:

On target server -after Data Pump is performed- call up service "Update Full Text Index (manage-91)" in library XXX01 to recreate Z91

Additional Information

Service manage-91 is relatively fast (approx. 30 minutes for 200.000 ADAM objects)

Category: ADAM (500)
