## ALEPH 22, z303\_last\_name / z303\_first\_name

- **Article Type:** General
- **Product:** Aleph
- **Product Version:** 22

---

### Problem Symptoms:

Running "Convert Patron Name (com-04)" in order to split the patron name into last name and first name does not remove the comma between last name and first name but takes the comma to field last name.

### Cause:

Defect

### Resolution:

This problem is solved with rep\_change 40 in Aleph 22. Different positioning of the comma is considered.

**Category:** Circulation/ALEPH
