

## pc\_server.log: "in translate\_ap\_zip\_usa"

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 22
- 

### Problem Symptoms:

Thousands of lines:

in translate\_ap\_zip\_usa

in pc\_server\_nnnn.log

### Cause:

These messages can be ignored and do not indicate any problem.

A debug message used for internal Ex Libris testing has been accidentally distributed in standard version.

### Resolution:

rep\_change 71 (Aleph 22) is removing this debug message.
