

p-acq-02-01 service help file is incorrect

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 22
-

Problem Symptoms:

The help for p-acq-02-01 service, for field ACTION:

- 1) does not include option for "Send Mail".
- 2) are the values X,Y and N correct? Because in z68_target_flag we find N (none), D (send directly), H (hold request) and M (send e-mail)

Action - Code:

054 Options:

Enter in field 1:

X for None, Y for Send Directly or N for Create Hold Request.

This field indicates whether or not the material was or will be sent directly to the patron for whom it was ordered or Hold Request is created or none of those.

Cause:

Incorrect help file

Resolution:

The documentation was updated with rep_change 109 in Aleph 22:

Description: Online help corrections for batch service - p-acq-02-01.

?

Solution: p-acq-02-01 - The information about the service has been updated.
