
Recently received/pending issues in Acquisitions do not appear in Primo

- **Product:** Voyager
 - **Product Version:** 8.2.1
-

Problem Symptoms

- Serials issues that have been recently received or are pending in Acquisitions do not appear in the 866 fields in Primo.
- Unable to send serials receipt data via vxws due to lack of setup for 102X codes that pull that data from Acquisitions.

Defect Status

Issue VYG-1400 has been resolved for Voyager 8.2.2.

Additional Information

See Release Notes and "[WebVoyage Changed Skin Files and Content 8.2.1 to 8.2.2](#)" document for details on implementing the fix.
