

SIP in validation cannot be declined

- **Article Type:** General
 - **Product:** Rosetta
 - **Product Version:** 3.2.2
-

Problem Symptoms:

A SIP in the validation TA workbench that we want to decline but when we click "work on" and select "decline a sip" we get error.

The error message is: "null" with a red exclamation mark.

Cause:

Missing file in validation

Resolution:

Try to decline the SIP from the list of SIPs in validation.
