
z307 Patron Log Records functionality not working

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 22
-

Problem Symptoms:

Setup of Patron logger functionality was done according description of "Yoel Log for Patron Record Changes V21 rep_ver 017818".

```
./xxx50/tab/tab_patron_log.lng is set to  
!1 2 3
```

```
!!!-!-!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!->
```

```
001 Y Update of global patron record-Details  
002 Y Update of global patron record-Blocks
```

But no actions are written in the file z307

Cause:

utf files not refreshed

time stamp of \$aleph_utf/utf_files/exlibris/aleph/xxx50/tab/tab_patron_log.eng newer than changed configuration file

Resolution:

1. Update the file in ./xxx50/tab/tab_patron_log.lng to a newer time stamp

e.g.

```
touch $data_tab/tab_patron_log.lng
```

2. Restart the PC Server
