

Email from Opac contains blank lines

- **Article Type:** General
 - **Product:** Aleph
 - **Product Version:** 21
-

Problem Symptoms:

An email with search results sent from the Opac contains needless blank lines. Can they be avoided?

Cause:

Configuration

Resolution:

Do the following configuration change in xxx01/form_eng/www_set_mail_00: add a line with only a minus sign between the lines with \$05000 and S5:

- \$05000

-

S5

Afterwards run util l/6 in order to create a new print tables package.
