

## Default values in patron registration form vanish

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 22
- 

### Problem Symptoms:

Patron Registration Form: Default values of the form switch to standard when scanning a Patron ID or when typing in a number in field Patron ID and clicking "Enter" afterwards.

### Cause:

Defect

### Resolution:

rep\_change 2169 in Aleph 22:

Description: GUI,CIRC - Patron fast registration. A malfunction when using a non-split patron name.

When the fast registration form return error, last name field was displayed in additon to the name field.

The problem occures when PATRON-NAME-FORMAT was not defined or empty.

?

Solution: This has been corrected.
