

Add "Pick up at" Field on Call Slip Request Form

- **Article Type:** General
 - **Product:** Voyager
 - **Product Version:** 7.2.3
-

Desired Outcome Goal:

Add the "Pick up at" drop down field to the Call Slip request form in WebVoyage.

Procedure:

1. Open System Administration > Call Slips > Queues
2. Select the first queue from Call Slips - Queues and click "Edit"
3. Select the "Values" tab.
4. Change the processing code radio button to: "In Transit for Hold to destination location"
5. Click "Save"
6. Repeat Steps 2-5 for each Call Slip Queue.
7. Verify the option displays correctly in WebVoyage, and the correct locations are available.
