

## Expand BIB information into HOL for publishing to Primo

- **Article Type:** General
  - **Product:** Aleph
  - **Product Version:** 21
- 

### Desired Outcome Goal:

BIB information (a specific field) shall be expanded into HOL record for publishing to Primo, the according information shall be displayed in Primo with the HOL record information.

### Procedure:

This can be solved by adding the following line to xxx60/tab/tab\_expand:

```
HOL-LOC expand_doc_hol_bib MERGE-TYPE=PRIMO
```

This is the relevant expand which is used when Primo requests the HOL data "on-time" from Aleph. All BIB fields are expanded into the HOL record.

**Category:** Publishing - ALEPH

**Subject:** Publishing Server Configurations - ALEPH
