

Question about budget permissions functions: expend funds

- **Article Type:** Q&A
 - **Product:** Aleph
 - **Product Version:** 20
-

Question

With reference to the permissions that control the individual staff member's ability to allocate, transfer, encumber, and expend funds for each budget in Aleph, we would like to know what functions are governed by the permission to expend funds for each budget.

Answer

The expend function is checked when you add a budget to an invoice.
