

Documentation of how to copy Aleph

- **Article Type:** Q&A
 - **Product:** Aleph
 - **Product Version:** 18 and up
-

Question

Where do I find documentation of how to copy Aleph?

Answer

A. Consult document

["Aleph 20 How to Copy Aleph"](#)

The document is also relevant for higher Aleph versions - e.g. for Aleph 21, path names a20_x need to be replaced by a21_x.

B. If only the u-tree needs to be copied,
consult Appendix A in document

[Guidelines for Aleph 18_01 to 20.x Upgrade](#)

This document was also created for target version Aleph 20.
Path names a20_x need to be replaced by a21_x etc.
